

# Technical Data Information Report

RID Number	Transmitter	Transmitter Organization	Receiver	Receiver Organization	Keyword 1
7798.01	Walker	Nye County NWRPO	QARC	Nye County NWRPO	GWE

Document Date	6/2/2010	General Document Type	QA Program Doc	Keyword 2	Drilling
Entry Date	3/10/2011	Detail Document Type	Well Completion Diagram	Keyword 3	Completion
Document Title/Subject	NC-GWE-8PA Well Completion Diagram.				
Data Originator/Preparer	Jamie Walker				
Data Description	Well completion diagram for well NC-GWE-8PA. Package contains hordcopy and electronic formats in DWG and PDF files: GWE_8PA_WCD REV.dwg and GWE_8PA_WCD REV.pdf. Revised diagram for consistency and readability. File GWE_8PA_WCD REV.pdf posted to NWRPO website as rid7798_01.pdf.				
Data Collection Method	Data collected during well completion activities at site NC-GWE-8PA.				
Data Collection Location	NC-GWE-8PA.				
Data Collection Period	6/2/2010				
Data Sources	Tubing and Casing Records and Scientific Notebook # 179 pages 52 through 55.				
Data Censoring	None.				
Data Processing	None				
Data Limitations	Borehole, casing and tubing depths are determined through direct measurement of drill pipe, well casing and tubing strings that are recorded on Tubing and Casing Records. All depths below original ground level were made in reference to a ground level datum or benchmark pin that was driven into undisturbed soils near the borehole prior to drilling. All depths and stick-up measurements are relative to this datum. Depths of completion materials (sand, grout, and other completion materials) are determined by "tagging" the depth of the emplaced material with a wire line tagging tool. The field accuracy of the tag tool is considered to be +/- 1 ft beyond 1000 ft and +/- 0.5 ft at a depth less than 1000 ft. Depths are not corrected for borehole deviation.				
Governing QA Docs:	TPN-5.6, Rev. 0				
Frequency of Transmittal	Once per borehole/well.				
Direct Questions About Data To:	NWRPO QA Records Center
