

Technical Data Information Report

RID Number	Transmitter	Transmitter Organization	Receiver	Receiver Organization	Keyword 1
7905.01	Howard	Nye County NWRPO	QARC	Nye County NWRPO	GWE
Document Date	4/28/2011	General Document Type	QA Program Doc	Keyword 2	Drilling
Entry Date	5/31/2011	Detail Document Type	Well Completion Diagram	Keyword 3	Completion
Document Title/Subject	NC-GWE-OV-2 Well Completion Diagram				
Data Originator/Preparer	Jamie Walker				
Data Description	Well Completion Diagram for well NC-GWE-OV-2. Package contains hardcopy and electronic formats in DWG and PDF files: GWE_OV_2_WCD REV.dwg and GWE_OV_2_WCD REV.pdf. As-built diagrams are in hardcopy form. Updated Well Completion Diagram for Consistency and readability. Revised to show depth-to-water graphic correctly. File GWE_OV_2_WCD REV.pdf is posted to NWRPO website as rid7905_01.pdf				
Data Collection Method	Data collected during well completion activities at site NC-GWE-OV-2.				
Data Collection Location	NC-GWE-OV-2.				
Data Collection Period	1/13/2011				
Data Sources	Tubing and Casing Records and Scientific Notebook # 179 pages 76 through 77 and Scientific Notebook #180 pages 6 through 8.				
Data Censoring					
Data Processing					
Data Limitations	Borehole, casing and tubing depths are determined through direct measurement of drill pipe, well casing and tubing strings that are recorded on Tubing and Casing Records. All depths below original ground level were made in reference to a ground level datum or benchmark pin that was driven into undisturbed soils near the borehole prior to drilling. All depths are stick-up measurements are relative to this datum. Depths of completion materials (sand, grout, and other completion materials) are determined by "tagging" the depth of the emplaced material with a wire line tagging tool. The field accuracy of the tag tool is considered to be +/- 1 ft beyond 1000 ft and +/- 0.5 ft at a depth less than 1000 ft. Depths are not corrected for borehole deviation.				
Governing QA Docs:	TPN-5.6, Rev. 0				
Frequency of Transmittal	Once per borehole/well.				
Direct Questions About Data To:	NWRPO QA Records Center
