

# Technical Data Information Report

| RID Number | Transmitter | Transmitter Organization | Receiver | Receiver Organization | Keyword 1 |
|------------|-------------|--------------------------|----------|-----------------------|-----------|
| 8105.00    | Walker      | Nye County NWRPO         | QARC     | Nye County NWRPO      | Well      |

**Document Date** 2/25/2013 **General Document Type** QA Program Doc **Keyword 2** Completion

**Entry Date** 3/21/2013 **Detail Document Type** Well Completion Diagram **Keyword 3** GWE

**Document Title/Subject** NC-AM-1P Well Completion Diagram.

**Data Originator/Preparer** Jamie Walker

**Data Description** Well completion diagram for NC-AM-1P. Package contains hardcopy and electronic formats in DWG and PDF files: NC-AM-1P As-Built.dwg and NC-AM-1P As-Built.pdf. File NC-AM-1P As-Built.pdf is posted to the NWRPO website as rid8105.pdf

**Data Collection Method** Data collected during well completion activities at site NC-AM-1P.

**Data Collection Location** NC-AM-1P

**Data Collection Period** 2/4/2013 to 2/22/2013.

**Data Sources** Tubing and Casing Records and Scientific Notebook # 188 pages 72 through 84.

**Data Censoring** None

**Data Processing** None

**Data Limitations** Borehole, casing and tubing depths are determined through direct measurement of drill pipe, well casing and tubing strings that are recorded on Tubing and Casing Records. All depths below original ground level were made in reference to a ground level datum or benchmark pin that was driven into undisturbed soils near the borehole prior to drilling. All depths and stick-up measurements are relative to this datum. Depths of completion materials (sand, grout, and other completion materials) are determined by "tagging" the depth of the emplaced material with a wireline tagging tool. The field accuracy of the tag tool is considered to be +/- 1 ft beyond 1000 ft and +/- 0.5 ft at a depth less than 1000 ft. Depths are not corrected for borehole deviation.

**Governing QA Docs:** TPN-5.6, Rev. 0

**Frequency of Transmittal** One per borehole/well.

**Direct Questions About Data To:** NWRPO QA Records Center
