RID No.	Transmitter	Org.	Receiver	Org.	Key word1	Title/Description
4265	Downing	NYE	Qarc	NYE	ONC#1	Onc#1 Westbay Data, 12/14/00 Through 3/7/01
Doc. Date	3/7/2001	General Doc. Type	QA PROGRAM DOC	Keyword2	WB	
Entry Date	6/20/2001	Detailed Doc. Type	DATA	Keyword3	DATA	
Data Originator Preparer	Reina Downing					
Title of Data	ONC#1 Westbay Data, 12/14/00 through 3/7/01					
Description of Data	One CD containing an Excel file "030701 ONC1_QA.xls". This file contains water elevation and temperature data from 12/14/00 through 3/7/01. The file has two spreadsheets: "Temp" and "ONC#1-Piezo". "Temp" contains temperature (C) data for Probes 0-9. "ONC#1-Piezo" contains barometric pressure (psi) from Probe 0 and piezometric water elevation in feet for Probes 8 and 9.					
Data Collection Method	Westbay Mosdax Datalogger and pressure and temperature probes					
Data Location(s)	ONC#1					
Data Collection Period(s)	12/14/00 to 3/7/01					
Data Source(s)	Westbay Mosdax Datalogger and 9 Westbay pressure and temperature probes					
Data Censuring	Probe #8 data					
Data Processing	Refer to NWRPO Technical Procedure 9.2					
Data Limitations	<p>ONC#1 Westbay data limitations (data collection period 12/14/00 to 3/7/01). The following text contains additional information necessary for interpretation of the attached ONC#1 water elevation and temperature data. Time frames are listed for each activity. Certain activities, such as equipment testing or water sampling, may have impacted the data and the data analyzer should be aware of this. ONC#1 probe depths (ft.):</p> <p>0 - 0.00 SN 2554 (datalogger)            1 - 517.59 SN 1810            2 - 778.41 SN 1811            3 - 1029.40 SN 1812            4 - 1176.19 SN 1803            5 - 1201.64 SN 1814            6 - 1231.17 SN 1813            7 - 1334.51 SN 1816            8 - 1477.23 SN 2455            9 - 1501.84 SN 2453</p> <p>Water level data is only available from Probes 8 and 9 which sit below the water table. Probes 1-7 record pressure equivalent to atmosphere or barometric pressure. Pneumatic pressure data from Probes 1-7 are available by request from the NWRPO. Temperature data is included for all probes.</p> <p>2/1/01, 8:03 - Downhole calibration            2/2/01, 10:10 - Resume datalogging. Probe 8 fails calibration - incomplete seal with the measuring port.            3/7/01 - Stop datalogging to resolve equipment problems and have instruments recalibrated at the factory.</p>
