Title of Data Complete NC-EWDP-2DB Summary Lithologic Log (Supersedes RIDs 6302 and 6992)

.....
Description of Data One cd containing the complete summary lithologic log for NC-EWDP-2DB, based on RID 6302 (0 to 1,155 ft) and a reinterpretation of the lower portion of the borehole (1,155 to 3,075 ft) in RID 6992. Files contained on the cd are: "2DB SLL Final.WCL", and "2DB SLL Final.pdf". Data file posted on the website www.nyecounty.com is named "RID7196.pdf".

.....
Data Collection Method Field sampling and logging of cuttings and borehole depth control procedures.

.....
Data Location(s) NC-EWDP-2DB

.....
Data Collection Period(s) 01/2003 to 02/2003

.....
Data Source(s) Combined Summary Lithologic Log based on the geologic interpretations provided in RID 6302 (0 to 1,155 ft) and a reinterpretation of the lower portion of the borehole (RID 6992).

Supporting Data: Geologic log data from Cuttings Sample Logs for NC-EWDP-2DB (RID 1539) and NC-EWDP-2D (RID 1297); geophysical data from open-hole geophysical logs (RIDs 3353 and 3576); the revised Summary Lithologic Log for NC-EWDP-2DB (0 to 1,155 ft) in RID 6302; and the revised summary description provided in RID 6992.

.....
Data Censoring None

.....
Data Processing Not applicable

.....
Data Limitations Complete summary log supersedes RID 6302, which contains a summary description from 0 to 1,155 ft; and RID 6992, which contains a summary description from 1,155 to 3,075 ft (text only). Note that RID 6992 was never posted to the NWRPO website (www.nyecounty.com). Summary Lithologic Logs were combined into a single document for completeness and coherency. The *.WCL and *.pdf files contain minor formatting and grammatical corrections to the summary descriptions provided in the superseded RIDs. The *.WCL file is a WellCAD Borehole file which requires WellCAD software to view.
