

NYE County NWRPO -Technical Data Report

RID No.	Transmitter	Org.	Receiver	Org.	Key word1	Title/Description
7223	Buqo	Thomas S Buqo, Consulting	QARC	Nye	EWDP	EWDP Manual Water Level Measurements through March 2007
Doc. Date	4/20/2007	General Doc. Type	QA Program Doc	Keyword2	MWL	
Entry Date	5/9/2007	Detailed Doc. Type	Data Packet	Keyword3	Data	
Data Originator Preparer	Tom Buqo, Bob Wilcoxon					
Title of Data	EWDP Manual Water Level Measurements through March 2007					
Description of Data	Data package includes Nye County's Regional Groundwater Elevation Database (RGED v.4.0.mdb) containing EWDP manual water level measurements through March 2007, field forms, hydrographs (available for review upon request), and exported data from database: "Export EWDP QA Data 0307.xls" (posted to nyecounty.com website as "RID7223.xls"). This data supplements the previous EWDP data package which included water level measurements through November 2006 (RID 7122)					
Data Collection Method	NWRPO calibrated electric water level sounders in accordance with Work Plan 10 Rev. 0, Groundwater Level Monitoring and Evaluation, dated 8/20/03.					
Data Location(s)	EWDP wells NC-EWDP-1DX, -3D, -4PB, -5SB, -7S, -10P, -12PA, -12PB, -12PC, -13P, -15P, -16P, -18P, -19P, -19PB, -22PA, -22PB, -22PC, -22S, -23P, -24P, -24PB, -27P, -28P, -29P, -32P, -33P, and Washburn-1X					
Data Collection Period(s)	November 2006 to March 2007					
Data Source(s)	1) M&O derived latitude, and longitude for well location and elevation data for well pad elevation ; 2) Depth to groundwater measured with electric water level sounders as recorded either in the Scientific Notebook (SNB) dedicated to each well, EWDP Groundwater Level SNB, EWDP Westbay Instrumented Wells SNB, or as recorded on the NWRPO Water Level Measurement Field Form (Form TP-9.9-1 Rev 0, dated 9/4/03); 3) NWRPO approved Well Completion Diagrams for each EWDP well for casing type, diameter, and measuring point stickup (as established with engineers steel tape and recorded in Scientific Notebook).					
Supporting Data	Metadata for prior submittals of manual water level measurements in EWDP wells (RIDs 6360, 6631, 7044 and 7122).					
Data Censoring	No data included with this submittal were censored.					
Data Processing	Data processing is limited to calculations made in the MS Access database (RGED v.4.0 mdb) and exports made from the database to MS Excel.					
Data Limitations	The water-level elevations presented must be considered approximate because of the potential error in the GPS-based elevation of the land surface at the well site which is believed to be on the order of +/- 1.75 ft. according to work performed by the Center for Nuclear Waste Regulatory Analyses. The potential error in the GPS-based elevations does not affect the depth to water nor the absolute change in water levels over time that may be calculated using the elevation datum for land surface. The potential error may, however, result in limitations in the use of these data for the calculation of hydraulic gradients between wells with the error induced in such calculations being inversely proportional to the distance between the two wells being used to perform the calculation.					
Governing QA Docs.	WP-10 Rev. 0, TP-9.9 Rev. 3					

NYE County NWRPO -Technical Data Report

RID No.	Transmitter	Org.	Receiver	Org.	Key word1	Title/Description
		Thomas S Buqo, Consulting	QARC			EWDP Manual Water Level Measurements through March 2007

Frequency of Transmittal Annually or more frequently as determined by the Principal Investigator and approved by the On-Site Geotechnical Representative.
